

Sharps Injury Log

Risk Management
Mat-Su Borough School District
501 N. Gulkana St.
Palmer, AK 99645
P: (907) 746-9213 || F: (907) 761-4091

OSHA's Bloodborne Pathogen Standard (29 CFR 1910.1030 (h)(5)) requires that a Sharps Log be maintained for all percutaneous injuries in a facility from contaminated sharps. The Sharps Injury Log should include all sharps injuries occurring in a calendar year. Submit this form to riskmanagment@matsuk12.us by January 5th of the following year.

Location: _____

Year 20__

Date	Type of Sharp (e.g. syringe, suture needle)	Brand Name of Device	Work Area of Incident (e.g. Classroom, lab)	Description of how incident occurred (i.e. procedure being done, action being performed)
